DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed August 12, 2009 have been fully considered but they are not persuasive. In regard to the rejection of claims 1 and 3-8 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement Applicant turns to page 10, lines 15-16 of the specification and Figures 2-4 for support for the limitation in claim 1 of "wherein the stepped portion is greater in height with respect to the substrate than the reagent portion." However, (1) the paragraph in which page 10, lines 15-16 is located does not make any mention of reagent; it is not mentioned until the following paragraph; and (2) as mentioned in the Final Office action of March 12, 2009, the difference in height of the top surface of the stepped portion from the top surface of the reagent portion shown in the figures is so small as to appear accidental.

Status of the Rejections pending since the Office action of March 12, 2009

2. The rejection of claims 1 and 3-8 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, is maintained.

3. The rejections under 35 U.S.C. 102(b) and 35 U.S.C. 103(a) are withdrawn.
